Wonders seven

The world has

African teacher

Artistically lectured

Hovered images

Now I see

Teacher tutored

Such one stands

In China far east

The great wall

Geomorphology created

Now reality I see

Universal wonders

True teacher tutored

Human mystery

Gorgeously standing

Nature surprising

The great wall indeed

Now I see

Seven wonders

Man created

Human paradox

Chinese great wall

Truly stands out

Surprisingly I see

'Education in China' class visit Confucius Temple

On 26th September 2016, the class of Education in China went on an educational trip to the Confucius Temple to appreciate more of what has been a historical site for centuries in China. The class was accompanied by Dr Li Jiayong who amazed the class when he described how the Kochu examination system was conduct-

ed. Students were also allowed access to the Confucius Institute to see some historical features including the Museum. 'The trip has full of information in it and it's amazing how people can preserve historical information. We hope there will be more of these in coming days,' one student said.
